## Experience

### Front End Developer Consultant

Capco, Mar 2018 - Present

- Contributing on-site to the digital platform build for a major insurance client in an agile scrum environment
- Building insurance policy editing capabilities via integrations with Guidewire platform (AngularJS)
- Converted legacy pages to match redesigns in new React project and maintained 70% test coverage
- Integrated Redux-Thunk with React project to improve management of shared data and simplify component structure

### Web Developer

Click Hound Inc., Dec 2017 - Feb 2018

- Developed web applications for small businesses using React, Express, and MongoDB
- Collaborated with designer to interpret requirements, then translated wireframes into responsive views

### Marketing Communications Analyst Co-op

Suncor Energy, Sept - Dec 2016

- Created analytics dashboard for web channel analytics
- Delivered presentation on content marketing to assist in refocusing marketing priorities

## Projects

*MBrace* - mental health discussion board built with ReactJS and PostgreSQL

*Boss (internal Capco project)* - budgeting app with challenges based on spending habits built with Angular 7 and MaterialUI
